

✖ As of October 1st our community has a new news source – a very different kind of news source. [LewisTalk](#) launched in our area the first of the month and already this online version of news has some great articles to read and enjoy.

Not only is this is news that is published online, it is also positive news about our community. Each news item provides insight into a local person, business or happening in a positive way. One way to describe how this is different from normal news is that instead of reporting a local sports event, LewisTalk reports on an individual player or coach so that you get the inside story.

If you don't already do so, reading newspapers online is an easy way to catch up on the latest and not clutter up your house with paper(s). I have these websites set in my "Favorites" and then one click and I can easily get to my favorite sources of news. I recommend you take a look at LewisTalk and see what the buzz is about! Click [HERE](#) for the direct link.

✖ Another interesting website to put in your Favorites is [DiscoverLewisCounty](#). This website provides information on things to do and see in Lewis County. This is a great one to visit next time you have visitors from out of town. There are great pictures from around the county to view as well. Check this out [HERE](#).

Enjoy the week ahead and explore these two Lewis County focused websites.
